

Minutes of Regular Meeting of Municipal District of Wainwright No. 61

The Council of the Municipal District of Wainwright No. 61 met in the Council room of the Municipal District on Thursday, the 19 June, 1958, at 9:00 in the forenoon.

Councillors: Dallyn, Garrioch, Patterson, Plaxton, Smallwood, and Archibald present, also Trustee Ruttray, Wainwright School Division No. 32.

Reeve Archibald in the Chair. Plaxton—That the minutes of 9 May, 1958, be approved as written. Cd.

Finance. Smallwood—That the account of Construction Equipment Company for \$2206.97 be held, this Company be asked to have a representative attend the next meeting with the view of settlement. Cd.

Garrioch—That the account as recommended by the Finance Committee and subsequent accounts received be passed and paid. Cd.

Bank Balances. Savings Trust Fund (Montreal) \$ 3516.31

Tax Sale Trust Account (Montreal) 6805.41

Building Fund (Montreal) 85371.20

General Account (Montreal) 2407.57

General Account (Treasury Branch) 22403.23

\$125052.72

Loans - Nil. Bonds \$26,000.

Dallyn—That the Reeve and Treasurer be and are hereby authorized to borrow from the Bank of Montreal the sum of \$65,000 deemed necessary to meet the end of requisitions. Cd.

Agricultural Service Board. Garrioch—That the minutes of the Agricultural Service Board meeting held 9 June, 1958, be approved and recommendations noted. Cd.

Smallwood—That the salary of the Field Supervisor be \$3800.00 per annum as and from 1st April, 1958. Cd.

Dallyn—That the salary of the Rat Control Officer be \$3100.00 as and from 1st April, 1958. Cd.

Garrioch—That the following Weed Inspectors be approved for 1958: Orvil Olsen, Irma; M. Prosser, Chauvin; R. Brady, Wainwright. Cd.

Plaxton—That the oral report of the Field Supervisor be accepted. Cd.

Mr. J. S. Duncan, D.A., advised the Council that the construction of the Wainwright Seed Cleaning Plant will be completed by the end of June, 1958.

Smallwood—That the Field Supervisor and Rat Control Officer contribute to the Unemployment Insurance Regulations as and from 1st June, 1958. Cd.

Administration and Taxation: Secretary reported on the following matters discussed at the Banff Conference held 9 and 10 June, 1958: Farm Purchase Credit Act, Municipal Administration Course, Hospitalization Benefits Act, Grants on Tax Notices and Amendments to the Municipal District and other pertaining Acts.

Dallyn—That an official of the Department of Agriculture be asked to attend the next meeting.

CHURCH SERVICES

IRMA UNITED CHURCH
Sunday, July 6th
Albert School Worship Service—10 a.m.
Irma Worship Service—11:30 a.m.

There will be no Sunday School at Irma for the next 7 Sundays.

Mr. L. D'Albertson of Wainwright will be the guest speaker at both Albert and Irma this Sunday.

"The Lord is my light and my salvation."—Psalm 27:1.

ST. MARY'S ANGLICAN
There will be a service of Morning Prayer at 11 a.m. on Sunday, July 6th.

St. Mary's Sunday School Picnic will be held at Stephenson's Lake on Sunday, July 13th.

Each family please bring a lunch basket.

Tea, coffee and treats for the children will be supplied.

ing of Council referring to the consideration of passing a By-law this year under the Farm Purchase Credit Act, Cd. 3 dissenting votes.

Garrioch—That this Council make representation to the Minister of Municipal Affairs to have the whole of Camp Wainwright Area be included within the boundaries of the Municipal District of Wainwright No. 61, as and from 1st January, 1958. Cd.

Secretary advised that petitions had been received from Ratepayers in Townships 42-43-44-45 Ranges 1 and 2, requesting the Council to assess and collect one mill tax on lands within these areas to partly defray extra travelling expenses of Medical Practitioner at Chauvin, Alberta, to Wainwright Municipal Hospital at Wainwright, Alberta. Matter referred to the Municipal Council and held until July, 1958, meeting.

Plaxton—That Mr. Smallwood attend the Regional Library meeting at Killam Public School, 23 June, 1958. Cd.

Correspondence from the Department of Municipal Affairs, dated 12 June, 1958, not approving on Boundary Adjustment No. 86 S16-22-48-9-4 read and noted.

Under the provisions of the Tax Recovery Act the following parcels appearing on Page 588 of the 31 March, 1958, issue of the Alberta Gazette, were offered for sale by Public Auction at 2 p.m., Thursday, the 19 Day of June, 1958.

NW 32-44-5-4; SE 6-45-5-4; NW 26-44-10-4; Block 5 Lot 1 Plan 5621 A.L. Hamlet of Jarow; Block 27 Lots 16-17 Plan 1156AE Wainwright's Central Park; Block 3 Lot 2 Plan 5888 HW Wainwright's Central Park.

No bids received. Sale declared closed.

Archibald—That C. Gordon Street be engaged as Assessor of the Municipal District as and from 23 June, 1958, at a remuneration of \$150.00 per day and 12c per mile for miles necessarily travelled, subject to the approval of Council after reasonable trial. Cd.

Home For Aged Or Infirm Persons: Secretary advised that two-thirds of \$67,500.00 being \$45,000.00 grant from the Provincial Government had been approved by an order-in-Council. (Received Friday 20 June, 1958.)

Plaxton—That the Board of Governors for the Home for Aged or Infirm Persons to visit some of the several homes of this kind in the Province to acquaint themselves with the administration and operation of same. Cd.

Municipal Property: Garrioch—That the Council make no objection to a proposed transfer of NW 26-45-4-4, Rosedale plan attached to correspondence from the Director of Town and Rural Planning dated 13 June, 1958. Cd.

Patterson—That this Council engage a Consulting Engineering firm to estimate the cost of installing sewer and water in Blocks 28 and 45 Wainwright's Central Park. NW 32-44-6-4. Cd.

Protection To Persons and Property: Garrioch—That Mr. Plaxton and the Secretary be a committee reference to a recreational centre at the Hamlet of Fabyan and report their recommendations when completed. Cd.

Public Works: Smallwood—That each Councillor prepare a list of locations of all Stop Signs in his division and report at July meeting. Cd.

Plaxton—That the following wage schedule shall be applicable to Road Foreman, James Zajac as and from this date \$1.75 per hour within the calendar year with a guarantee of \$300.00 per month between the end of Road construction and start of road construction due to seasonal weather conditions. Cd.

Secretary advised that Special Consented Appropriation of \$20,000 had been allocated to District highway 41-5-2 South of Chauvin in Townships 41 and 42 Range 1, Chief Maintenance Engineer, July 30 May, 1958.

Dallyn—That Mr. Garrioch be a committee to investigate the

WEDDING BELLS

NISSEN — JONES

An attractive June wedding was solemnized at the home of Mr. and Mrs. Percy E. Jones when their only daughter, Audrey Ethel, pledged wedding vows with Mr. Helge C. Nissen.

Rev. Clinton Swallow of Viking United Church officiated. The home was tastefully decorated with pink and white streamers, bells, mums and nothings.

The bride's gown was of light blue lace over silk tulle with white accessories and the wore a pearl necklace, gift of the groom. Her corsage was pink rosebuds. Mrs. Clifford Jones, sister-in-law of the bride, was her only attendant. She wore a pink flowered gown with white accessories and pink rosebud corsage.

The groom's only attendant was Mr. Norman Nissen. Miss Joan Nissen played the wedding music.

A reception followed for thirty-five guests. The table was decorated with a Madeira cloth and a beautiful three-tiered wedding cake flanked by tall pink tapered candles.

Mr. Donald Gunn proposed a toast to the bride and the groom responded.

Out-of-town guests were Mrs. Nellie Harvey, aunt of the bride from Palm Springs, Calif., and Mrs. Steve Jones of Edmonton, and Mr. and Mrs. Evan Jones of Vermilion, uncles of the bride; Mr. Tom Mackey of Vancouver, B.C., also an uncle of the bride; Mr. and Mrs. P. Hanyuk of Edmonton.

The bride changed to a rose-2-piece suit and silk fallie blue coat before leaving on their honeymoon.

On their return, Mr. and Mrs. Nissen will reside in Irma.

EASTERLY ECHOES
Mr. and Mrs. Sam Holt and family of Edmonton spent the weekend with their parents, Mr. and Mrs. Joshua Holt.

Mr. and Mrs. H. Morse and Robbie of Flaxcombe, Sask., visited with old friends and neighbors over the long weekend.

Mrs. W. Crabb, Edna and Margaret are spending the week at Elk Point with Mr. and Mrs. Pytel.

Mr. and Mrs. Frank Crabb, either, Joyce Dootson and Dave Holt are on a fishing trip at Long Lake for the week.

Yvonne and David Crabb are staying with the Dootsons and Linda Crabb is entertaining the Newmans.

It is gratifying to see the number of folks making use of the Wayside Park for family picnics, etc. The Crabbs and Dootsons were dinner guests of the Newmans at the park on Sunday.

Mr. and Mrs. Archie Cook are now living in their new home.

Awarded Scholarship
Congratulations to Leslie Balentine who has been awarded a scholarship by the British and American Paint Co. for first year engineering, he has also won the award given by the University Board for first class honors—over 85%. Leslie seems to be away to a flying start following his first year at the U. of A.

About 7,500,000 Canadians are owners of life insurance policies. Life insurance in force now totals about \$34.5 billion.

account of Jacob D. Hofer, hauling out cars and trucks, Division 2 also cattle creep between 25 and 36-4-4-4. Cd.

Matter of bridge S/SE 28-45-5 and construction of grade referred to Mr. Patterson. Chief bridge engineer's letter 11 June 1958.

Archibald—That Mr. Patterson be a committee reference Assoc. FWUA letter 30 May, curve West of NW 32-44-6-4 (should read 32-43-6-4). Cd.

Patterson—That the paycheats be passed and paid when signed by the Council concerned. Cd.

Mr. Patterson to attend the next meeting of the Wainwright School Division meeting.

Garrioch—That this meeting adjourn. Cd.

WITH THE District Agriculturist

By J. S. Duncan

Order Trees Now

Farmstead, field or roadside plantings next spring should get their orders in now. Every year some of the late applications have to be turned down because the supply has all been ordered.

Application forms are available from your District Agriculturist or from the Field Crops Branch, Department of Agriculture, Edmonton.

Your Hay Crop

Don't leave your hay standing too long while you hope that it will thicken up to give you a better yield. Cut it when it will give you the best quality feed.

If you use a baler, get the bales into a stack as soon as possible. Leaving bales lying on the ground where they can get wet every time it rains is a sure way to lose a lot of feed value. This is particularly true of square bales as they don't shed water. A shed or shelter for bales is also a very good idea.

It Happens To You

During the warm weather rats move about very freely. Your farm might happen to be one that they move onto. Constant vigilance pays off in staying free of rats. All rubbish, junk piles and lumber should be cleaned up as clean farmsteads are not inviting to rats. A regular check of barns and granaries should be made for any signs of digging or gnawing on floors. All fences in the first two or three ranges west of the Saskatchewan border should have bait out at all times just in case rats do arrive.

Any farms where rats have been found west of this area should also have bait out at all times. Bait and advice are available from your Pest Control Officer.

Anyone seeing or suspecting rats should report at once to the Pest Control Officer. Remember that you are the one who suffers loss and damage if rats move onto your premises, so any precaution you can take will be to your own benefit.

SHOWER FOR BRIDE ELECT

On Saturday afternoon, June 28, Miss Della Symington was indeed surprised by friends from the Glen-Coa community and others at the home of Mrs. H. Ruste of Wainwright, who wished to express their good wishes in a tangible form.

Miss Della was in charge of the afternoon's program. After singing a hymn together, Mrs. Ransok led in the devotion- al period. The contests which followed brought much laughter.

Miss Della then presented Della with a milk stool and told her that the ladies wished to initiate her into the difficult feat of milking. A gaily trimmed cow bell rang its mellow tones, and in came Della, Lilly, and Arlene carrying overflowing milk pails. Each pail, so daintily decorated, was set down before the laughing young lady upon the milk stool. With the help of Lilly (Mrs. Ralph Erickson), Della opened the many varied and useful gifts. Della expressed her thanks very charmingly, saying also that she had indeed been taken by surprise. She gave everyone an invitation to visit Eklund and herself when they were settled on the farm.

The trio, Mrs. Carl Gulbraas, Mrs. R. Erickson, and Mrs. H. Ruste, sang then delightful little songs in closing.

"If you do not use it, you are sure to lose it. The more of it you give, the more of it you have. If you try to hold it tight, it will surely leave its flight. So just remember every day to give more of your love away!"

The usual delicious lunch brought the happy occasion to a close.

OPTOMETRIST
D. A. Mathieson, R.O. 309 Birks Building, Edmonton, Alta., will be in Irma at the Hotel on Monday, July 7th from 2:30 p.m. on. For appointment see Mrs. Lang, Drug Store.

Northern Nuggets

Miss Lois Patterson left on the Super Trans. Sunday for the East where she will visit her aunt, Mrs. Irvine Goodale at Dundas, Ont., then on to Montreal where she will teach in the Rock of Ages Youth Bible Camp.

Born to Mr. and Mrs. Roy Siefred (the former Grace Harder) of Langley, B.C., on June 16, a son, Darrell Richard, a brother for Kenneth and Barbara.

Mr. Bob Johnson is a patient in Mannville hospital. We are glad to hear that he is making progress toward recovery.

Mr. and Mrs. Cockcroft of Edmonton are taking up residence in the Glen-Haven home.

Mrs. Herder and Nina have gone to the coast with Mrs. Edie Lums, the former Gladys Herder.

Mr. and Mrs. C. L. Currie called on Mr. F. Pile while in Vancouver last weekend and stayed over a night with him there. He talked of old times and sends his best regards to all at Irma.

Mrs. A. E. Blakely saw the Curries in Victoria and also wishes to be remembered to all her old friends.

On Monday afternoon of this week Mrs. J. Clisdell invited Mr. and Mrs. Ron Currie and family for tea. About 16 friends and neighbors were gathered there to surprise Ron and Evelyn and to wish them a happy landing in their new home at Fort Nelson, B.C.

On behalf of those present, Mrs. Alan Lums presented Ron and Evelyn with a set of matched luggage.

Miscellaneous Shower Held for Bride-to-be

On Monday evening, June 30, about eighty-five friends of Miss Verla Prior gathered in the basement of the United Church for a miscellaneous shower in her honor.

Mrs. Olive Murray was Mistress of Ceremonies and set a lively pace for the evening's program.

There were contests led by Mrs. Weatherly and Mrs. Drew. A chair, dust by Misses Sharon and Maureen Gunn and a reading by Mrs. Murray. A special song for Verla and Bill was written by Mrs. Hurst and sung by a group of ladies.

Then a chair and Linda Lovig dressed to represent a welder and a hairdresser, brought in a miniature welder's truck heaped with gifts. Many more interesting packages covered a long table. Verla was invited to explore the contents of these parcels, assisted by Miss Isabel Prior and Mrs. Clifford Firkus, and a wonderful array of useful and beautiful articles were brought to light and duly admired by all.

Verla warmly expressed her thanks.

A delicious lunch was then served by the hostesses.

Glen-Coa Cleanings

Mr. and Mrs. Clayton of Edmonton spent the holiday weekend with Mr. and Mrs. Geo. Pedel.

Miss Myrna Hurray of Viking was a weekend guest of Miss Edythe Gulbraas.

Messrs. F. Knudson and L. Satre accompanied by Pastor Magee, went on a fishing expedition on Monday of this week to Mariel Lake.

Instead of the regular vesper service at Sharon next Sunday evening, Pastor Magee has announced it for Friday evening, July 4th. It is now the first anniversary of the coming of Pastor and Mrs. Magee and family to the Sedgewick Parish.

The Luther League showed interesting films last Sunday evening dealing with Bible camp and convention themes. The reminiscences of Bible camp days by Mrs. Ralph Erickson brought back nostalgic memories to most of us.

The road five miles south of Irma only got a much-needed face lifting recently. In one place the road now runs straight instead of having to round a curve. It will be something to see when all such curves are straightened out.

NORTH EAST CORNER

(Too late for last week)

On Sunday the Firkus' joined a family picnic and fishing jaunt near Lougheed.

Mr. and Mrs. Les Bradey and children visited with relatives in Edmonton on Sunday.

Susan Nemyo is a patient in the local hospital. We hope to see you home again soon Susan.

Rev. and Mrs. Gerald News-ham and Joy of Mayo, Yukon, visited at the Howard Oldmans' last week. Thursday evening they showed some very interesting pictures of the north country.

Mrs. Edna Smith of Calgary was home at the week-end, visiting with her mother, Mrs. Jones and sister, Mrs. A. Cook.

The next meeting of the FUA is to be held at the Bill Lawson home the evening of July 8.

On Monday Jack Savard took his mother to Edmonton for medical treatment. While there he purchased a boat. Tuesday he and his brother-in-law, K. Glere, and Jack Veitch left on a fishing trip. Good luck fellows.

Glad to see Sonny Patterson home again after a stay in the Viking hospital.

The Weather . . .

We have only had a few scattered showers so far. A good general rain is badly needed at time of writing. There were some touches of frost reported in some low spots on Tuesday night, so all in all we can't call this good growing weather.

KIEFER'S SHOWS at Irma

Soft water

Many a Canadian boy has been scolded by his mother for leaving a ring around the bathtub on Saturday night—and neither of them realizes it could be avoided by the addition of a little water-softener to the bath water.

"Bathub ring" is a scum formed by the reaction between soap and certain minerals dissolved in natural waters. The most common of these minerals are such salts of calcium and magnesium as the chlorides, sulphates and bicarbonates.

Water which contains relatively large amounts of these substances is called "hard" water. If the amount of dissolved salt is low, as in rainwater, the water is said to be "soft." Distilled water, containing practically no minerals, is far softer than any natural water.

Hardness is usually measured today in parts per million. If a million pounds of water contained one pound of calcium carbonate, the hardness of that water would be one part per million. Sometimes the hardness is measured in degrees: one degree is equivalent to one grain weight of calcium carbonate per gallon of water.

When soap is dissolved in hard water, much of the soap forms insoluble calcium and magnesium compounds, leaving a scum. This scum provides no cleansing action, so the soap used up in this way is wasted.

Hard water which contains mainly bicarbonates is said to have "temporary" hardness, for it can be softened by boiling, which removes the bicarbonates as a precipitate of carbonates. This accounts for the scale in your tea kettle at home. On the other hand, water containing chlorides and sulphates is said to have "permanent" hardness, and in this case boiling has no effect.

Water can also be softened by adding chemical reagents. This method is illustrated in the use of bath salts, and also in a simple experiment you may make at home.

For this experiment, first dissolve some Epsom salt shavings in a little water. An eye-dropper is handy for measuring out amounts of the soap solution. The water in some parts of our country is not very hard, and for this experiment it is better to make the water as soft as possible. To a test-tube of tap water, add a few crystals of Epsom salts (hydrated magnesium sulphate). After dissolving the crystals, divide the water into two equal parts.

Next, make a water-softening solution in a "new" water, dissolve as much Epsom salt as possible. (Chemically, washing soda, is hydrated sodium carbonate). The anhydrous form, known commercially as soda ash, would serve equally well.

Soften one of the samples of hardened water by adding a quarter test-tube of softening solution. Note the precipitate of magnesium carbonate. To show that the water has been softened, add 30 drops of the solution to each of the two test-tubes. You will see a distinct difference in the amount of suds produced by equal shaking of the samples.

The lesser amount of suds observed

tained with the harder water indicates that most of the soap has been used in precipitating the magnesium ions, and hence is not available to form suds.

In this experiment, the softening is effected by adding washing soda, a compound which reacts with the dissolved Epsom salts. This reaction removes the magnesium ions as the precipitate of magnesium carbonate which you noticed.

Various other water softeners are commonly used in the home; for example, household bottled ammonia, which is just a dilute of ammonia in water; ammonia powder, which is ammonium carbonate; borax (hydrated sodium tetraborate); and trisodium phosphate. In the case of each of these substances, softening is achieved by adding the softener directly to the hard water, thus precipitating the undesirable metallic ions in the form of insoluble compounds.

Detergents, like those used in your home to wash everything from dishes to dairy clothes, contain water softeners. In industry, water softening is essential for economy in such important processes as paper making, printing of cloth, and many of the treatments that turn a textile fibre into finished cloth.

Hard water can seriously reduce efficiency in the operation of industrial boilers. Calcium salts in water result in the formation of "boiler scale"—comparable to the scale inside a tea kettle. This deposit consists of insoluble calcium compounds which retard the flow of water through the boiler tubes. Worse, they cut down the conductivity of heat through the walls of the tubes. Even dangerous explosions are possible if the deposit becomes thick enough.

Various types of phosphate compounds are used to soften boiler-feed water. The ingredients of these are supplied by Canadian Industries Limited to specialist firms which combine them for specific uses. The cost of treatment is recovered many times over through the savings resulting from improved efficiency.

Monte Keith, new publisher Castor Advance

On June 1st the Castor Advance changed hands. Mr. W. Mandick who has operated the newspaper for the past ten years and a half years has disposed of the plant to Mr. Monte Keith.

Mr. Keith is married and has two young children. He has served in the newspaper business on the Sylvan Lake News and the Rimby Record before taking employment for the past two years with the Stettler Independent.

According to the report in the Castor Advance Mr. Mandick plans to make his home in Edmonton.

The Review extends a welcome to Mr. Keith—The Review, Corporation, Alta.

CHANGES APPEARANCE
The appearance of the gail by can be changed by the food it eats. When fed on a different diet, it assumes an entirely different appearance from its parents.

Graceful cape

7102

by Alice Banks

Perfect topping for your new spring fashions—graceful cape crocheted in easy pattern. Pattern 7102: Crochet directions for sizes small, medium, large included. Use 3-ply fingering yarn or mercerized string. Easy—so lovely in design. Send thirty-five cents (coins) for this pattern (stamps cannot be accepted) to: Household Arts Department, P.O. Box 90 Front Street, W., Toronto.

PRINCE ALBERT POSTMASTER WALTER WILSON hands the mail to Saskatchewan Government Airways Captain Fred McLean in this picture of the inauguration ceremony, hailing Saskatchewan's first mail run to Uranium City, in the heart of the province's rich Beaverlodge uranium field. The mail, from southern Saskatchewan and eastern points, is being flown by Saskatchewan Government Airways. Loading of the mail directly to Uranium City from Prince Albert, instead of around by Edmonton—a move resulting from pressure mainly by Saskatchewan businessmen—saves 24 hours. Pictured left to right: Maurice Longpre, Prince Albert Chamber of Commerce president; Mayor Dave Stewart; Steve Struck, trucker; Postmaster Wilson; Captain McLean; SGA Manager Ian MacLeod; Ernie Goss, Prince Albert Chamber of Commerce manager; and Duncan McLeay, Post Office transportation supervisor, from Saskatoon.

Aerial tramway used to maintain service on Alberta unit of Microwave system

Alberta's most westerly link in the Trans-Canada Microwave System was recently put into operation by Alberta Government. The system consists of a point less than a mile from the British Columbia boundary. The tower is located atop a mountain peak in the Crownpoint Ridge, some 15 miles west of Coleman.

Choice of the site was influenced by a fortunate natural phenomenon. An unobstructed transmission path extends through the mountain valley back to the tower at Pincher Creek and forward to the tower at the British Columbia tower at Fernie. Microwave transmission allows only slight offsets from a perfectly straight line. Alberta Government Telephone engineers say that had the mountain ridge upon which the tower is built been situated as much as one-quarter mile north or south of the required site a much more difficult construction problem would have been faced.

A bed-rock anchor helps the 250 foot tower withstand winds up to 300 miles per hour. It will sway one degree in winds up to 100 miles per hour, a frequent occurrence in this mountain section. Even a minor sway of one degree will distort microwave signal.

Construction of Crownpoint tower was accomplished by gouging a truck road out of the mountain-side to link up with a permanent valley road about 1,000 feet lower. The truck road is subject

to frequent blocking from snow and rock slides. An alternative method of access had to be devised to enable speedy servicing of delicate electronic equipment at the site. The problem was solved through installation of a cable car. Eight terminals only are used for suspending the conveyance. Elevation is over 3,000 feet and distance is about 2,800 feet. Single anchor suspension cable is one-inch diameter. The endless traction cable is three-quarter inch in thickness. The car may be operated by control at either top or bottom terminal. Only control inside the cage is a safety brake to be used in case of cable breakage. A telephone circuit connects terminals and car.

A 25 horsepower electric motor drives the cable car, which is large

PRIME MINISTER TO VISIT PION-ERA JULY 1

The Rt. Hon. J. G. Diefenbaker, Prime Minister of Canada, will open the afternoon show at Pion-ERA on Dominion Day. Mrs. Diefenbaker will also be in attendance. Mr. Diefenbaker will declare the show open when he pulls the whistle on the recently reconditioned Watrous Champion Portable steam engine.

Pion-ERA visitors will thoroughly enjoy the Western Development Museum extravaganza and historic pageant which unfolds at the show being held from June 30-July 5. Arrangements have been made for the RCMP and the RCMP to be present at the grand opening. Other attractions include early western railroad construction scenes and many other demonstrations of prairie progress in action. The Sheriff's Pose, an all Palomino precision ride from Edmonton will also be taking part. The CBC national microwave TV network will also be officially opened by the Prime Minister while at Pion-ERA July 1. Earnest Bunnell of the CBC has recently spent considerable time at the Museum finalizing arrangements where the program will originate.

ANIMAL BITES

Bites or scratches from dogs, cats or other animals should have immediate attention. If the animal is a healthy domestic pet, the spot should be cleaned and a handy sterile dressing applied. If the wound is inflicted by a wild animal or strange dog, it should have medical attention as soon as possible, since there have been several outbreaks of rabies in some parts of Canada.

Care urged in use of lawn mowers

A seasonal warning to be careful in the use of power lawn-mowers was issued by the Hon. J. Walter Erb, minister of public health.

"The 22 victims of accidents who were treated in hospitals last year were only indicative of a larger number of people, some of whom were given emergency treatment in out-patient departments or doctors' clinics," said Mr. Erb.

"The most common accident happens when operators attempt to start machines with one or two feet under the back or side, which sometimes results in amputation of toes," Mr. Erb said. The second most common accident reported is when the machine is operated on a hill or incline and rolls back over the victim's feet.

"Two kinds of accidents occur with power lawn-mowers—accidents by the blades, and thrown debris. It is necessary to make sure that no stones, sticks, or bones are in the grass. Bystanders, particularly children, should be kept at a distance. Children should not be allowed to operate these machines.

Government to develop provincial public park

The Manitoba Government will develop a provincial public park at Oak Lake. Work has already started on the project which in time will mean a fine new playground for the people of Western Manitoba.

Location of the new park is Cherry Point on the north shore of Oak Lake, and the set up will be similar to that at Pelican Lake. The present clearing will be bulldozed to give access to a sandy beach. There will be change rooms for bathers, outdoor fireplaces for picnics, and many trees will be planted. It is likely that running water and electric stoves will be available. Space has been provided for private cottages.

For the new Oak Lake playground some 15 acres of land have been purchased by the Manitoba Government from the original Plaster homestead.

A road is being built into the new park from the road leading to the present Oak Lake resort. It is expected that control dams will be constructed to govern the in-flow and out-flow of Oak Lake water.—The Empire-Advance, Vir- den, Man.

ATTENTION:

FALSE TEETH That Loosen Need Not Embarrass
Many wearers of false teeth have suffered real embarrassment because their plates dropped, slipped or wobbled as just the wrong time. Do not live in fear of this happening to you. Just purchase a little **FAST-FIT**, the alkaline (non-acid) powder, on your plates. Hold false teeth more firmly, so they feel more comfortable, whiter, less sour. Checks "white odor" (denture breath). Get **FAST-FIT** at any drug counter.

You can't go ALL-OUT If you feel ALL-IN
These days most people work under pressure, very more, sleep less. This strain on body and brain makes physical fitness easier to lose—harder to regain. Today's faster living, lowered resistance, overwork, worry—any of these may effect mental kidney action. When kidneys get out of order, excess acid and waste, remain in the system. This backache, disturbed rest, that "tired-out" heavy-headed feeling after dinner—these are signs to take **Dodd's Kidney Pills**. Dodd's stimulates the kidneys to normal action. Then you feel better—sleep better—work better. Ask for **Dodd's Kidney Pills** at any drug counter.

RED CROSS WATER SAFETY
I GUESS I CAN'T MAKE IT ACROSS AFTER ALL—YOU'D BETTER HELP ME!
SAFETY SAM SAYS:
DON'T ATTEMPT LONG SWIMS WITHOUT BEING ACCOMPANIED BY A BOAT
...REMEMBER...
EVEN GOOD SWIMMERS CAN... AND DO DROWN!
COURTESY OF CANADIAN RED CROSS (LADY DIVISION)

SERVE MY Spiced Tea Scones PIPING HOT AND BUTTERED!

Sift together once, then into bowl:
1½ c. once-sifted all-purpose flour
or 2 c. once-sifted pastry flour
3½ tsp. Magic Baking Powder
1 tsp. salt
½ c. fine granulated sugar
¼ tsp. cinnamon
¼ tsp. grated nutmeg
Cut in finely
¾ c. chilled shortening
Mix in
½ c. seedless raisins

more milk, if necessary, to make soft dough. Turn out on lightly-floured dough and knead about 10 times.
Roll the dough. Shape each portion into smooth balls roll out to ½" thickness and mark into 6 wedges with knife. Place on greased cookie sheet and brush tops with slightly-beaten egg white, then sprinkle with granulated sugar.
Bake in hot oven, 425°, until golden—about 18 mins. Serve hot, or split and toasted, with butter or margarine.
Yield: 12 scones wedges.

You'll get lighter, fluffier, more even textured baked goods when you bake with Magic Baking Powder. Get it today!

MAGIC BAKING POWDER

Kinsella News

A Bridal Shower in honor of Miss Audrey Barker, a bride elect of July 4th, was held in the Kinsella Memorial Hall on Saturday. Thirty-five ladies attended and Audrey was the recipient of many useful and pretty gifts. A pleasant afternoon was spent, with games and contests, and at the close, a delicious lunch was served, a feature of which was a "bridal cake" made by Miss Betty Armitage. The bride-elect graciously thanked the ladies for her gifts.

Mr. C. Lancaster, Mr. Louis Pederson and Jack Lancaster enjoyed a fishing trip at Dried Meat Lake last week.

Miss Patricia Barr of Edmonton was a weekend visitor at the home of Mr. and Mrs. Bruce Davis.

At the OORP meeting held on Tuesday, June 24th, the new officers for the coming year were installed. Guests at this meeting were members of the local Elks' Lodge.

Miss Patricia Witts of Calgary is holidaying with her grandmother, Mrs. R. Stevens.

End of school term parties were held by the classrooms of the Kinsella School.

Mr. and Mrs. A. Darroch, Judy and Robert of Brockville, Ontario, are at present visiting Mrs. Darroch's mother, Mrs. A. Milne and sister and brother-in-law, Mr. and Mrs. G. Paterson.

Mr. and Mrs. C. Royden of Provost and daughter, Miss Mary Royden of California, were weekend visitors at the home of Mr. and Mrs. P. Wagner.

Linda Ganser of Provost, is spending a holiday with her grandparents, Mr. and Mrs. P. Wagner.

Miss Ann Brown of Brantford, Ontario, is holidaying with her aunt and uncle, Mr. and Mrs. O. Olsenberg.

Good Drivers Know How to Take Curves

The best drivers are the ones who know how to take curves on the road. Always slow down before the curve and accelerate gently as you round it, feeding just enough gas to get the feel of the road. Your car will hug the road better if it is under power on the curves.

Canadian National Railways has more than 5,000 stations ranging from flag stops to immense and complicated terminals, and also nearly 7,000 bridges.

Card of Thanks

We wish to sincerely thank all our friends for the farewell party given us at Mrs. Clusell's on Monday afternoon. Your lovely gift and good wishes should really get us off to a good start in our new home. We will always remember your kindness. —Ron and Evelyn Currie.

Card of Thanks

To Mrs. McFarland and all my friends in the Afternoon Group of the W.A. I wish to express my many thanks for the afternoon tea held in my honor, also for the lovely clock which I am finding very useful, also to all my friends and relatives who worked so hard to help with my sale, with their help I never could have made it. I appreciate it more than words can express.

Sincerely,
Isabel Hutchinson.
